FEEDING GUIDELINES

Depending on the age, activity level and condition of your dog, the feeding guidelines will need to be adjusted. The normal daily feeding amount for a healthy adult dog:

These quantities can be fed as one meal or divided into two meals based on your dog's preference. When switching foods, gradually increase the new food and decrease the previous food to help make a smooth transition. Visit your veterinarian regularly to maintain your pet's health. Always provide fresh water.

Dog's Weight	Cups to Feed per Day*

FEEDING GUIDELINES

Depending on the age, activity level and condition of your dog, the feeding guidelines will need to be adjusted. The normal daily feeding amount for a healthy adult dog:

*Using standard 8 oz measuring cup.

These quantities can be fed as one meal or divided into two meals based on your dog's preference. For pregnant

females, gradually increase the food offered during the last four week of gestation up to 40% over the normal adult requirement. For puppies, feed up to twice the normal adult requirement from four to fourteen months of age in two to three feedings. When switching foods, gradually increase the new food and decrease the previous food to help make a smooth transition. Visit your veterinarian regularly to maintain your pet's health. Always provide fresh water.

Dog's Weight	Cups to Feed Per Day*
4 - 10 lbs	2/3 - 1
11 - 15 lbs	1 - 1 1/4
16 - 20 lbs	1 1/4 - 1 2/3
21 - 25 lbs	1 2/3 - 2
+5 lbs	+1/2 cup
